**INFORMATION DISCLOSURE STATEMENT
UNDER 37 C.F.R. § 1.97 & § 1.98**

Under the provisions of 37 C.F.R. § 1.97(b)(1), and in accordance with the Applicants' duty of disclosure under 37 C.F.R. § 1.56, Applicants would like to call to the Office's attention the references listed on the attached substitute form PTO-1449 and the information provided below.

Applicants note that since all (except one) of the listed references and below-referenced items were cited by or to the Office in an earlier application relied on for an earlier effective filing date under 35 U.S.C. § 120 (see CROSS-REFERENCE TO RELATED APPLICATIONS section of the specification), no copies (except one) are required to be furnished by Applicants. 37 C.F.R. § 1.98(d).

It is respectfully requested that the listed references and below-referenced items be expressly considered during the prosecution of this application, that the Examiner initial each listed reference and below-referenced item to evidence its consideration, and that the references and below-referenced items be made of record therein and appear among the "References Cited" section on any patent to issue therefrom.

Applicants also direct the Office's attention to the following related pending applications: U.S. Reissue Application No. 09/577,798 entitled Method of Delivery, Targeting, and Measuring Advertising over Networks, filed May 24, 2000, U.S. Application No. 09/094,949 entitled Method and Apparatus for Automatic Placement of Advertising, filed June 15, 1998, U.S. Application No. 10/082,069 entitled Network for Distribution of Re-Targeted Advertising, filed February 26, 2002, U.S. Application No. 10/254,923 entitled Method of Delivery, Targeting, and Measuring Advertising over Networks, filed on September 26, 2002, U.S. Application No. 10/798,342 entitled Method of Delivery, Targeting, and Measuring Advertising over Networks, filed on March 12, 2004, U.S. Application No. 10/798,444 entitled Method of Delivery, Targeting, and Measuring Advertising over Networks, filed on March 12, 2004, and U.S. Application No. 10/937,341 entitled Method of Delivery, Targeting, and Measuring Advertising over Networks, filed on September 10, 2004.

Applicants disclose for the Office's review, as discussed below, documents relating to a litigation (*DoubleClick, Inc. v. L90, Inc.*, 00 Civ. 2690, S.D.N.Y.) involving U.S. Patent No. 5,948,061 (the '061 patent), on which the above-mentioned reissue application is based. (DoubleClick brought suit against Sabella in a related action (*DoubleClick, Inc. v. Sabella Media, Inc.*, 99 Civ. 11718 (DLC), S.D.N.Y.) that was consolidated into the L90 action). The present application is a divisional of U.S. Patent Application No. 10/254,923, filed on September 26, 2002, temporarily held abandoned (awaiting decision on petition to withdraw holding of abandonment), which is a continuation of U.S. Patent Application No. 09/293,463, filed on April 15, 1999, now abandoned, which is a continuation of U.S. Application No. 08/738,634 (the '634 application), which issued into the '061 patent. DoubleClick, Inc., plaintiff in the above-referenced litigation, is the assignee of record of the '061 patent, the '634 application, the reissue application, the present application, and all above-mentioned related applications. Although the infringement and invalidity portions of the litigation had been stayed pending the outcome of the reissue application, the litigation moved forward on the sole issue of alleged inequitable conduct before settling on November 29, 2000.

In an effort to alleviate the Office's burden of reviewing the litigation documents, Applicants have set forth below the general issues that surfaced in the litigation, and offer some direction through the disclosed documents. As a side note, Applicants have disclosed the

documents that seem useful for the Office to assess the patentability of the present invention. If the Office wishes to obtain and review additional litigation documents for that purpose, the Office is invited to make that request of Applicants.

The following general issues surfaced in the litigation:

1. Whether an offer to sell or commercial sale of the invention of the '061 patent to a company named Attachmate occurred more than one year before the filing date of the '634 application under 35 U.S.C. § 102(b);
2. Whether the SmartBanner ad serving technology of a company named FocaLink constituted a public use or publication of the invention of the '061 patent more than one year prior to the filing date of the '634 application under 35 U.S.C. § 102(b); and
3. Whether a public use of the invention of the '061 patent between the inventors and a company named ISS occurred more than one year before the filing date of the '634 application under 35 U.S.C. § 102(b).

Attached to this statement as Exhibits 1 and 2 are copies of the 37 C.F.R. § 1.132 declarations of inventors Dwight Merriman and Kevin O'Connor which were filed on April 4, 2001 in the reissue application. In addition to the litigation documents listed in the Appendix, the following pre-trial motions and orders from the litigation have been disclosed to the Office:

- Plaintiff DoubleClick's Pre-Trial Memorandum of Law
 - Defendant L90's Opposition to Plaintiff DoubleClick's Pre-Trial Memorandum of Law
- Defendant L90's Pretrial Memorandum of Law
 - Plaintiff DoubleClick's Memorandum of Law Submitted in Response to Defendant L90's Pre-Trial Memorandum of Law
- Plaintiff DoubleClick's Proposed Findings of Fact and Conclusions of Law
- Defendant L90's Proposed Findings of Fact and Conclusions of Law
- Joint Pretrial Order
- Stipulations of Dismissal (L90 and Sabela)

In the litigation, Plaintiff submitted 30 trial exhibits and Defendant submitted 312 trial exhibits. To minimize the Office's burden, Applicants have furnished the subset of trial exhibits that are referenced in the disclosed pre-trial motions and orders. These exhibits include:

- Plaintiff's Exhibits: 8, 11, 13, 14, 16, 23, 29, 30
- Defendant's Exhibits: 2, 4, 5, 6, 8, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 25, 26, 27, 29, 30, 31, 32, 35, 36, 37, 38, 39, 40, 41, 44, 45, 48, 49, 50, 56, 57, 58, 59, 61, 63, 64, 66, 67, 68, 69, 70, 71, 76, 77, 80, 89, 90, 91, 93, 96, 97, 98, 99, 101, 106, 111, 113, 114, 115, 118, 193, 194, 215, 216, 217, 223, 226, 231, 248, 296, 298, 301, 310, 311, 312
